

CybTouch 8 PS

Synchronized Press Brakes

The Intuitive Programming

CybTouch 8 PS is intended specifically for synchronized press-brakes.

As part of the CybTouch range, it has an intuitive and vivid color touch screen and a high integration of functions.

Thanks to its interactive touch software interface with large keys, on-line help, and many other automatic functions to constantly guide the operator, CybTouch 8 PS is as simple as a positioner control.

CybTouch 8 PS is integrated into a sleek and modern housing specially designed to be attached to a swivelling arm, or can optionally also be delivered as a robust panel.

Easy Operating

- Large touchscreen, with vivid colors and high-contrast.
- Simple pages, clear display, large keys.
- Intuitive and user-friendly interface.
- Complete programming for efficient mass-production with multiple bends.
